

Tally Prime Server

ENTERPRISE SOFTWARE FOR
HIGH-GROWTH BUSINESSES.

Growth Demands Greater Control.

You've already experienced how simple and powerful TallyPrime is. But as your team grows, so do your users, data, and responsibilities.

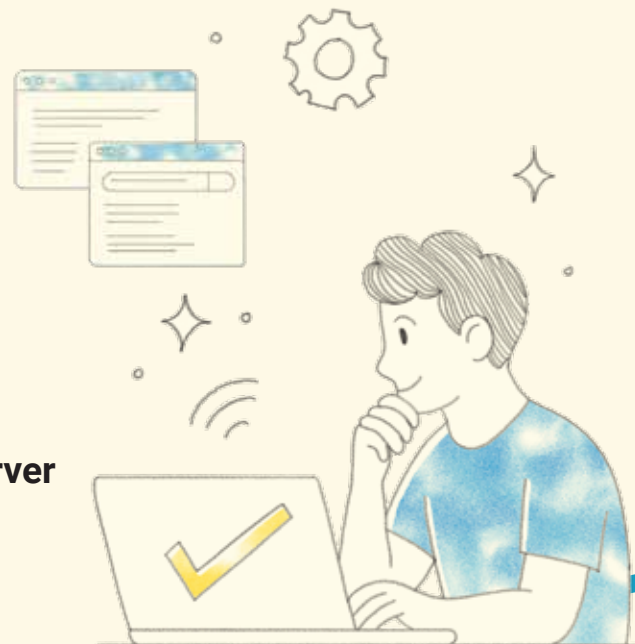

More people.

More transactions.

More pressure on your systems.

And that's where most setups start to slow down, but you need not.

An enhanced solution like **TallyPrime Server** ensures your business stays efficient, secure, and always ready for action.

Why TallyPrime Server?

Technology that keeps up with your ambition.

Always Reliable

- ◆ Your business runs without interruptions – even during backups.

Completely In Control

- ◆ Know who accessed what.
Decide who can do what.

Ready to Scale

- ◆ Whether it's one user or many, your system never skips a beat.

Unmatched Concurrency

Imagine this.

One person enters transactions.

Another reviews reports.

Someone else runs a backup.

All at the same time.

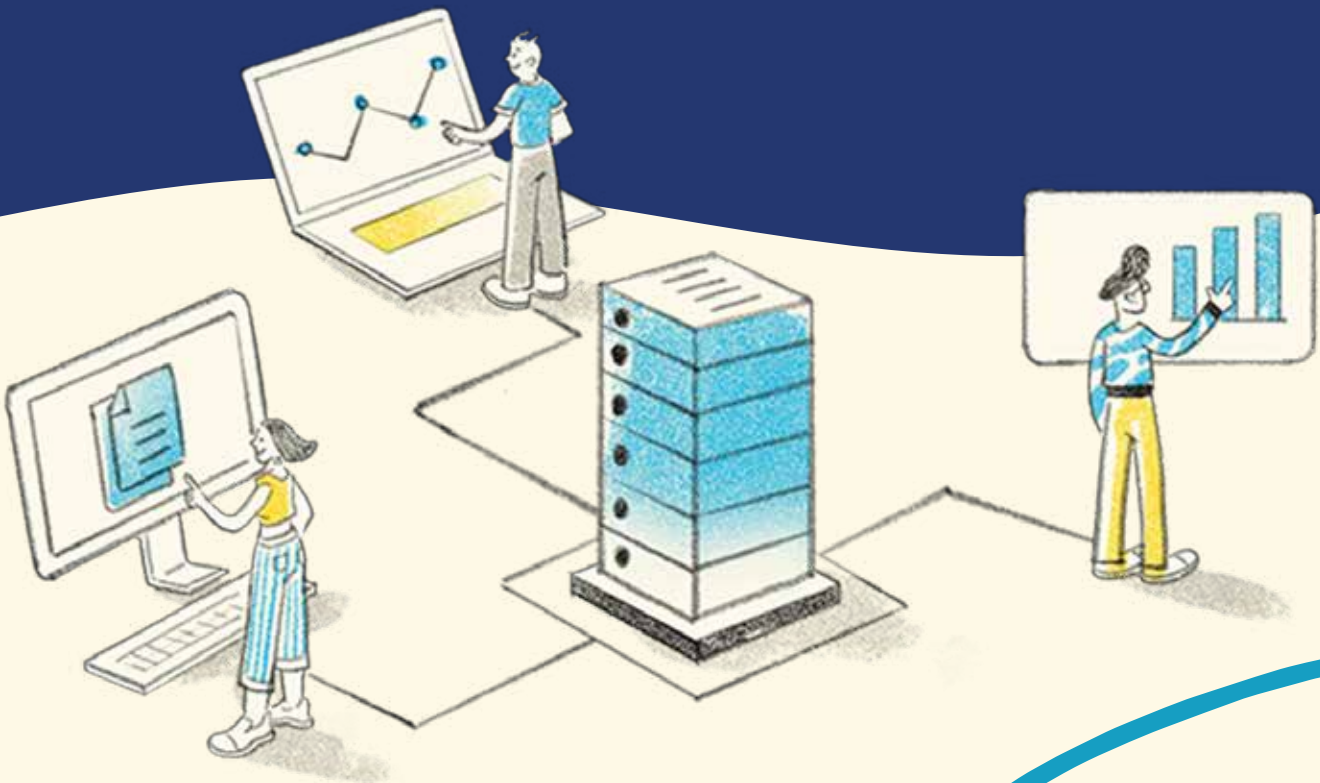

On the same company data.

Without waiting. Without conflict.

That's how teams work on TallyPrime Server.

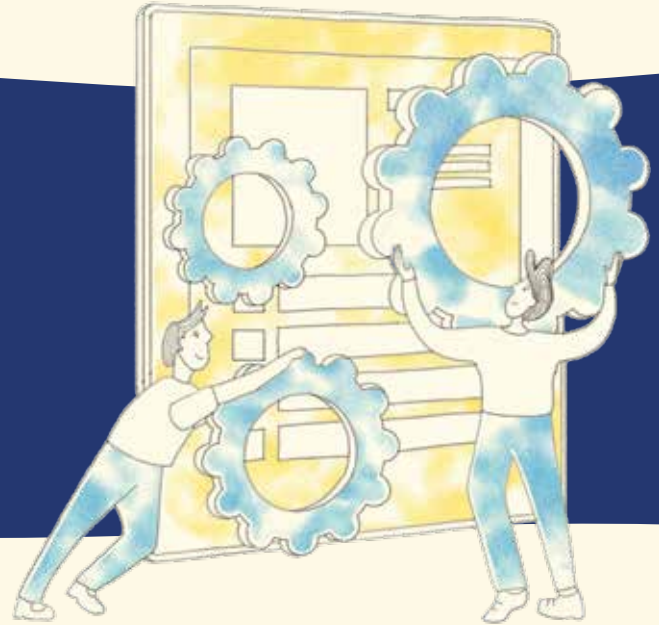

With support of unlimited concurrent read/write operations for transactions, reports, and backups - ensuring smooth, lag-free performance.

High Performance. Zero Downtime.

Uninterrupted Operations

Your business keeps running – even as users and data grow.

Enterprise-Grade Reliability

No crashes. No data corruption.
No business interruptions.

Always On

Designed for continuous availability,
day in and day out.

This is the reliability engine behind your growing operations.

Complete Control. Total Data Protection.

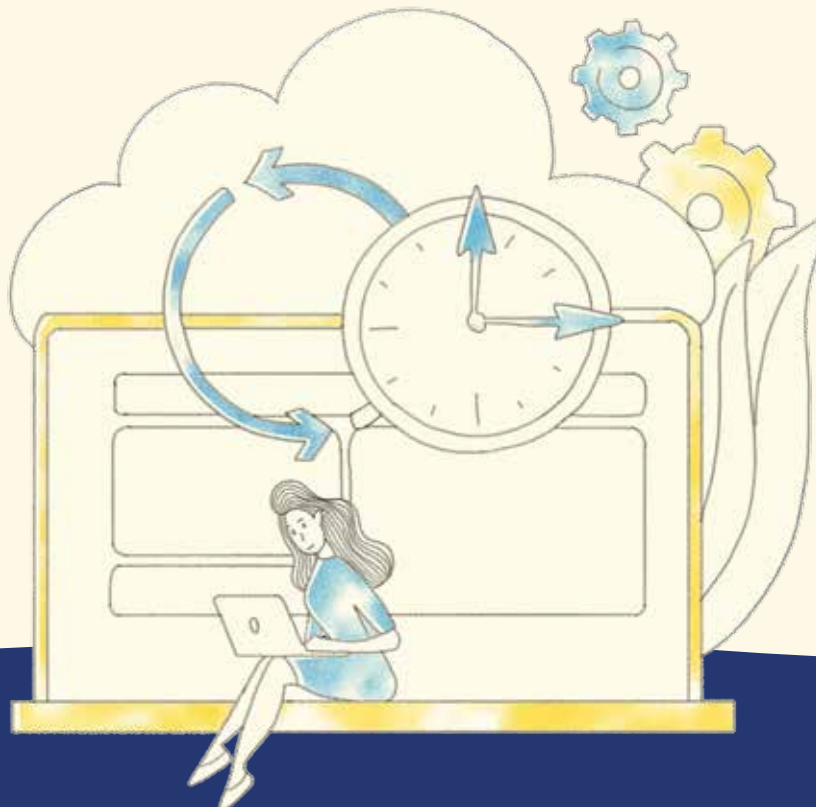

Monitor & decide clearly:

- ◆ Who can access your data
- ◆ Who can modify it
- ◆ Who can take backups

Secure physical data paths.

Protect sensitive files.

Prevent unauthorised actions.

Automated Backup in TallyPrime 7.0 and above

- ◆ Schedule Daily, Weekly, or Monthly backups. Plus 10 GB cloud storage!

**Built to match the
pace of your growth.**
